Personal Letter

After leaving my home country 4 years ago I decided to change my life and learn IT, something I was always good at, but until that time I had never seen myself as a Developer. My past work experience is not related to the IT job I'm looking for, but I hope it shows that I have wide experience in many fields, which proves my adaptability skill is well matured.

Work experience

2019: Worked in construction and demolition at CPH Mandskab for 9 months. (Copenhagen, Denmark)

2018: Servicekraft at MaLoa, PokéBowl restaurant in Berlin for 6 months from September to October. My task was only to attend clients but I also fixed technical-mechanical problems when necessary for the work to keep going. I was also in charge of logistics (Berlin, Germany).

2018: General maintenance technician at Huba Huba beach bungalows and restaurant for 8 months in Cambodia. My main task was to give electrical power to the business and to take special care of the electrical generators in the Asian jungle. I also improved plumbing system, repaired damaged buildings and we built five new bungalows (Koh Rong Samloem Island, Cambodia).

2017: Hostel front of desk at Samsen 360 Hostel in the central area of Bangkok for 12 months. I was in charge of organizing the database, administrating websites with PMS technology. (Bangkok, Thailand)

2014: Team leader in network marketing business for 12 months. Multi-level sales, training of sales agents in coaching, communication skills, and persuading customer to acquire products. (Buenos Aires, Argentina)
